MEMORANDUM FOR: Director, NPIC

THROUGH: Executive Director, NPIC

SUBJECT: Publications Division Report for April 1962

1. Thirty-four NPIC publications, processed by the Publications Division, were disseminated in April, including 17 detailed interpretation reports, 3 mission-coverage indexes, 6 mission-coverage plots, 3 situation summaries, 3 OAK parts, one immediate photographic interpretation report, and one project-status listing. Corrections of 2 NPIC publications were also disseminated. In addition, one ORR report was retyped, illustrated, and prepared for reproduction.

2. The total page count for the items listed in paragraph one was 751 pages. This is an increase of 11 percent over the March production of 668 pages, and represents 98 percent of the April 1961 figure of 763 pages. Two of the three mission-coverage indexes issued in April accounted for 52 percent of the total of 751 pages.

3. The 35 publications handled by the division during the month contained 112 illustrations. In addition to these illustrations the division produced 184 new briefing boards and cleaned 29 old ones, made 85 forms, signs, and charts, 8 mosaics, one line drawing, and 48 vu-graphs. It also furnished other miscellaneous graphical support to Center components. It is interesting to note that the production of briefing boards continued its almost vertical climb, with 40 boards produced in February, 71 in March, and 184 in April.
